RETENTION AND ACADEMIC SUCCESS

TUTORING 101: WHAT IS TUTORING?

WHO WE ARE AND WHAT WE DO

The Student Success Center provides tutoring for a large variety of subjects. The tutors are undergraduate peers who have taken and excelled in the courses for which they tutor. Tutors participate in a competitive review process that includes a written application, faculty recommendation, and face-to-face interview. Many have also received level-one tutoring certification from the College Reading and Learning Association.

Common concerns addressed by tutors:

- Academic Success
- Time Management
- Study Skills
- Test Taking Strategies
- How to communicate with instructors

What can you expect from a tutor?

- A solid understanding of subject matter for which you are requesting additional assistance.
- Encouragement during the learning process. Never giving an answer, but rather, providing you with insight to help you come to the correct conclusion independently
- Patience in times of frustration and difficulty.
- The troubleshooting ability to find gaps in information previously learned and a willingness to fill those gaps so that educational growth may occur.
- Understanding and acceptance.
- Explanation of concepts and course material that is catered to your individual learning style.
- Knowledge of a variety of campus resources.
